

Qprep Polishing cloths, self-adhesive

QPREP polishing cloths offer the right cloth material for all materials and analysis purposes.

PRODUCT ADVANTAGES

- Ideal for polishing in combination with the media carrier for the fully automatic Qpol 250 BOT as well as with the X-Tap system
- Optimized adhesive backing ensures uniform fixing over the entire surface on the fixation system and realized no slipping or detachment of the polishing cloth

RECOMMENDED APPLICATIONS

- For use with X-Tap system
- For use with media carrier plate (Qpol 250 BOT)
